TECHNICAL SPECIFICATIONS & DETAILS

Appliances - specifications

(Appliances listed below are all optional; inclusions vary by kitchen configuration.)

- Integrated BULL Outlaw gas grill with optional gas connections for bottled gas (LPG) or plumbed in mains gas (NG). Supplied with barbeque cover. Optional upgrade: BULL Angus gas grill – Premium 4-burner gas grill with additional lights, rotisserie kit and rear rotisserie burner. Options to be specified at point of ordering.

- Integrated Grillo Gusto Grill – charcoal-fired, ceramic construction; supplied with Gusto Pro BBQ accessory kit & cover.

- Gozney Arc XL or Dome Gen 2 with Base and/or Riser - A premium compact, gas-powered pizza oven built for outdoor use that brings high-temperature performance to your garden or patio.

- Integrated Grillo Voltiq Electric Grill – mains electric powered, ideal for roof terraces or areas where a naked flame is restricted.

- Grillo Outdoor Drinks Fridge Cabinet – Outdoor-rated undercounter fridge with LED lighting and adjustable shelving.

- Outdoor Tarn Sink Suite – ceramic sink and matching tap with mains cold and hot water and waste connections.

- Chef's Anvil Barbecue – Wood or charcoal-fired circular grill with heavy-duty steel cooking plate; perfect for interactive, social cooking.

Materials - specifications

- Metalwork Units and Construction: our metalwork is made from heavy-gauge aluminium and has a marine-grade textural powder coating for protection from the elements. Colour: RAL9005

- Hardwood timber: Iroko hardwood timber is inlaid throughout the kitchen, the finish is sawn and planed. As Iroko is an exceptionally durable, low maintenance hardwood, we leave the wood untreated and uncoated – it requires no surface treatment. It is known for its longevity, its resistance to rot and insect attack, and its attractive silvering with age.

- Work surfaces: our worksurfaces are made from Grillo Plateau™ sintered stone. In addition to being immensely strong, it offers UV stability, heat resistance, stain/chemical resistance, scratch resistance, porosity and weatherproofing. Its durability is attributed to fusing minerals under extreme heat and pressure, in a process that emulates natural metamorphic rock formation. Worktop colour: Smoke

- Fixings: all supplied fixings are stainless steel 304 or above.

For more information see our design and materials page: https://grilloliving.com/vantage-design-and-materials/

CAD files

- SKP and DWG files available for download or on request

Installation

- Grillo Vantage outdoor kitchens are a fully installed package by default. Let our trained installers build your kitchen on site on a day of your choice.
- Unassembled/delivery-only also an option – to be specified at point of ordering. Guide weight available on request.

Warranty

- Every Grillo kitchen we sell comes with a Limited 10 Year Warranty for materials and workmanship. For more information, please see the warranty page: https://grilloliving.com/warranty/

Changes to this layout

- As with all our kitchens, this layout is configurable. Check out our configurator that allows you to design your own Vantage Outdoor Kitchen just how it's needed for a project.
