TECHNICAL SPECIFICATIONS & DETAILS

Appliances - specifications

(Appliances listed below are all optional; inclusions vary by kitchen configuration.)

- Integrated BULL Outlaw gas grill with optional gas connections for bottled gas (LPG) or plumbed in mains gas (NG). Supplied with barbeque cover. Optional upgrade: BULL Angus gas grill – Premium 4-burner gas grill with additional lights, rotisserie kit and rear rotisserie burner. Options to be specified at point of ordering.
- Integrated Grillo Gusto Grill – charcoal-fired, ceramic construction; supplied with Gusto Pro BBQ accessory kit & cover.
- Gozney Arc XL or Dome Gen 2 with Base and/or Riser - A premium compact, gas-powered pizza oven built for outdoor use that brings high-temperature performance to your garden or patio.
- Integrated Grillo Voltiq Electric Grill – mains electric powered, ideal for roof terraces or areas where a naked flame is restricted.
- Grillo Outdoor Drinks Fridge Cabinet – Outdoor-rated undercounter fridge with LED lighting and adjustable shelving.
- Outdoor Tarn Sink Suite – ceramic sink and matching tap with mains cold and hot water and waste connections.
- Chef's Anvil Barbecue – Wood or charcoal-fired circular grill with heavy-duty steel cooking plate; perfect for interactive, social cooking.

Materials - specifications

- Metalwork Units and Construction: our metalwork is made from heavy-gauge aluminium and has a marine-grade textural powder coating for protection from the elements. Colour: RAL9005
- Hardwood timber: Iroko hardwood timber is inlaid throughout the kitchen, the finish is sawn and planed. As Iroko is an exceptionally durable, low maintenance hardwood, we leave the wood untreated and uncoated – it requires no surface treatment. It is known for its longevity, its resistance to rot and insect attack, and its attractive silvering with age.
- Work surfaces: our worksurfaces are made from Grillo Plateau™ sintered stone. In addition to being immensely strong, it offers UV stability, heat resistance, stain/chemical resistance, scratch resistance, porosity and weatherproofing. Its durability is attributed to fusing minerals under extreme heat and pressure, in a process that emulates natural metamorphic rock formation. Worktop colour: Smoke
- Fixings: all supplied fixings are stainless steel 304 or above.
